SINCE 2020

6 YEARS IMPACT REPORT

WELCOME ADDRESS

Dear Stakeholders, Partners, and Community

As we reflect on the past six years of Dopals Technologies, I am filled with gratitude to God and deep pride in our collective achievements. These years have been nothing short of extraordinary, serving as a testament to our unwavering commitment to fostering innovation and applying technology to create sustainable solutions for local challenges.

Dopals Technologies has continued to evolve as a hub where innovation meets purpose, using technology to address the realities of everyday life. Our journey has been shaped by meaningful milestones and impactful initiatives. Through various programs, we have empowered our community by providing mentorship, access to resources, and opportunities that support growth, resilience, and long-term impact.

This remarkable journey would not have been possible without the dedication and hard work of our team, the unwavering support of our partners and stakeholders, and the encouragement of our community. Together, we have inspired a shift in mindset, from passive expectation of change to actively taking responsibility for development, laying the foundation for a thriving ecosystem of innovation and creativity.

As we look toward the next four years, our commitment to Vision 2030 remains strong. We envision an ecosystem where individuals are equipped to harness digital skills, create opportunities, and drive economic prosperity. We will continue to refine our strategies, innovate intentionally, and adapt to meet evolving challenges. With your continued support, I am confident we can turn this vision into reality.

Thank you for being an integral part of this incredible journey. Together, we look forward to a future of even greater innovation and success.

Warm regards,

KHALID YERO

■ ABOUT US

Dopals Technologies is where innovation meets purpose, combining technology and entrepreneurship to address everyday challenges. We believe in the power of entrepreneurial thinking to drive solutions that not only improve lives but also create new opportunities for growth. By empowering individuals and communities to leverage digital skills and innovate, we foster an ecosystem where technology becomes a tool for solving problems, inspiring new ventures, and building a sustainable, digitally connected future

■ VISION

Our aim is to establish ourselves as leaders, leaving a lasting legacy in driving innovation, supporting entrepreneurship and transformation through technology

■ MISSION

Our Vision is to empower individuals and communities to harness and leverage digital skills, unlocking their potentials to drive innovation, foster entrepreneurship, and create opportunities for building a sustainable digital future

OUR IMPACT IN NUMBERS

A PIONEER IN DIGITAL TRANSFORMATION AND COMMUNITY IMPACT

Dopals Technologies has established itself as a trailblazer in Gombe State, championing the growth of Digital Economy, Entrepreneurship, and Innovation. Through groundbreaking initiatives and unwavering commitment to community empowerment, Dopals Tech continues to redefine possibilities in the region

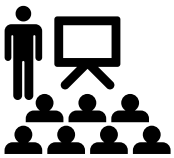

Our Founder, Mr. Khalid Yero, was recognized for these outstanding contributions when he received the prestigious Digital Economy Promotion Award (Northeast) from NITDA at the 2022 Digital Nigeria International Conference

2025: A Year of Milestones and Exponential Growth

The year 2025 has been a remarkable journey for us, filled with groundbreaking achievements and unparalleled success. From winning the prestigious iHatch Startup Incubation Program to being recognized as an Applied Learning Cluster under the 3MTT Program, every milestone has underscored our dedication to excellence and innovation

These accomplishments are a testament to our unwavering commitment to creating impact, driving progress, and setting new benchmarks in our journey of growth

OUR ACTIVITIES

PITCH-IT NORTHEAST STARTUP INCUBATION

Pitch-IT is our flagship annual startup training and incubation program designed to empower youth and women across Northeastern Nigeria. The program delivers structured, hands-on entrepreneurship training, tailored mentorship, and access to funding opportunities for promising early-stage startups.

Launched in 2025, the core objective of Pitch-IT is to inspire innovation, nurture an entrepreneurial mindset, and catalyze job creation by unlocking the potential of brilliant minds from underserved regions.

The program runs for 12 weeks and features:

- Practical, hands-on startup and business development training
- Mentorship from experienced and established entrepreneurs
- Access to funding opportunities, including grants, equity investments, and soft loans, to support viable and scalable ventures

Pitch-IT is positioned as a pipeline for transforming ideas into sustainable businesses while fostering inclusive economic growth in the region.

OFFICIAL 3MTT PARTNER

Dopals Technologies has been selected as an Applied Learning Cluster for the prestigious 3MTT Program. This initiative, spearheaded by the Federal Ministry of Communications, Innovation, and Digital Economy, aims to empower 3 million Nigerians with cutting-edge digital skills across various disciplines, including Artificial Intelligence (AI), Software Development, UX/UI Design, and more

WINNERS OF 3MTT COHORT 2 HACKATHON

A group of talented fellows from our Product Management Class achieved an outstanding milestone by securing 1st Place at the 3MTT Impact Summit Hackathon for Gombe State

This remarkable achievement highlights their creativity, teamwork, and deep understanding of product management principles. Their success serves as a testament to the power of innovation and the transformative impact of the 3MTT Program

WINNING IHATCH STARTUP INCUBATION PROGRAM WITH D-RYDES

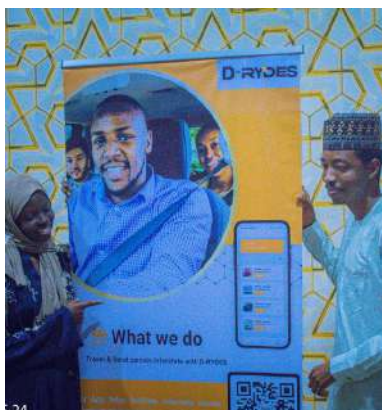

D-RYDES

During the iHatch Cohort 3 Startup Incubation Program, we conceived an innovative idea to revolutionize interstate travel in Nigeria. Our vision was to connect car owners with passengers and parcels traveling to similar destinations through a user-friendly mobile app

After five months of intensive training, we launched D-Rydes and showcased our progress at the Regional Demo Day, where we secured 1st Place in the Northeast. We then advanced to the National Demo Day, emerging as 1st Runner-Up and earning a \$12,000 grant to bring D-Rydes to life

Today, the D-Rydes Mobile App can be found at both Google Play Store and Apple App Store and has onboarded significant number of users and has successfully facilitated more than 100+ trips and moved over 1000 people across Nigeria as of now

D-Rydes is more than just an app; it's a platform transforming how Nigerians travel, making trips more convenient, secure, and accessible

The National Girls in ICT Competition is Now Open and Accepting Entries!

Register now and be a part of the movement to bridge the gender gap in technology

APPLICATION DEADLINE
21st, September 2024

APPLY HERE
b.link/NationalGirlsinICT

Dopals Technologies is the official volunteer hub for Gombe State in the implementation of National Girls in ICT competition

This project is a yearly event of the Federal Ministry of communications innovations and Digital Economy in Nigeria that encourages girls in secondary school to develop their skills in information and communication technology (ICT)

The competition aims to reduce the gender gap in the ICT industry and inspire girls to pursue careers in STEM.

Team InnovateHer from Pen Resource Academy Gombe who were mentored by Dopals Technologies proudly displaying their awards after winning the regional competition, advancing to the finals and securing a Top 3 spot at the 2024 National Girls in ICT Competition

Team ZNPINTELECTUALS from GGMC Doma who were mentored by Dopals Technologies proudly displaying their awards after winning the regional competition and representing Northeast at the finals and securing 4th place at the 2023 National Girls in ICT Competition, mentored by Dopals Technologies.

NITDA MOBILE/WEB DEVELOPER TRAINING

In 2022, Dopals Technologies proudly partnered with the National Information Technology Development Agency (NITDA) to host the Mobile/Web Developer Training for the Northeast in Gombe State. This pioneering program aimed to empower participants with in-demand digital skills and boost the region's tech ecosystem

As the partner hub, Dopals Technologies facilitated the training of 50 participants, equipping them with practical knowledge in Web and Mobile App development. A unique highlight of the training was the introduction to no-code app builder platforms, such as Adalo, enabling participants, regardless of their coding background, to create functional applications efficiently

The program not only strengthened participants' technical proficiency but also contributed to building a foundation for technological innovation and entrepreneurship in the region. Dopals Technologies remains committed to initiatives that drive digital transformation and open up opportunities for local talent

TRAINING THE GALLANT OFFICERS OF NIGERIAN POLICE FORCE GOMBE STATE DIVISION

EQUIPING SECURITY PERSONEEL WITH DIGITAL SKILLS

For three consecutive years, Dopals Technologies has partnered with NITDA and the Nigeria Police Force (NPF) to train the gallant officers of the Gombe State Command in essential digital skills. These sessions have equipped officers with tools for enhanced efficiency in modern policing, including digital literacy, data management, and technology-enabled communication.

This initiative reflects Dopals' commitment to driving digital transformation in critical sectors of society including security

I'm proud to announce that the officers of the Gombe State Command achieved the highest pass rate during the recent computer-based promotional exams. This remarkable success reflects their dedication, hard work, and the impact of continuous digital skills training.

I extend my heartfelt gratitude to NITDA and Dopals Technologies for their invaluable partnership, which played a pivotal role in making this achievement a reality. Together, we are driving innovation and excellence in law enforcement.

Gombe State CP, Etim Oqua
